

myName

CS student with a solid math/stat background and a wide variety of interests that tend to intersect at FOSS, Linux, and scientific computing.

(+20) xxx-xxx-xxxx | email@gmail.com

Tech Skills

Firm grasp of the theory underpinning the technology that I use, coupled with an even firmer math background. I daily drive OpenSUSE's Tumbleweed, and had experience with Arch Linux, Debian, and almost all of the Debian derivative distros. And I always try to only use FOSS

Computer languages

- R – Fair experience & commitment due to a number of college projects.
- Python – Basic scripting and numpy.
- Java – My most studied and most used programming language by far
- Bash – Fair skills from daily use.
- L^AT_EX – Advanced skills with extensive use due to math background.
- Basic web suite (HTML, vanilla CSS, basic JS, and some static site generators).

Human languages

- Arabic – Native speaker
- English – Native-like speaker (112/120 TOEFL score)

Education

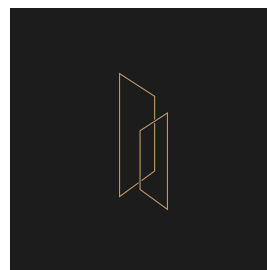

- *Bachelor of Science (MONTH YEAR)*
- *Major in Computer Science & minor in Statistics*
